24/7 support
and 7 day
field service

Deposit ConnectMini

Secure Smart-safe Solution

DepositConnect Mini is perfect for medium-sized venues who need the convenience and security of a cash recycler without the space requirements and high cost of larger recyclers.

Handling cash is expensive and time consuming. Cash recycling reduces staff costs and improves security for your venue and staff.

DepositConnect Cash Recyclers remove the need for manual cash counting. This reduces your cash handling costs, eliminates errors and provides secure cash storage in a Level 1, 24-hour rated safe.

Not only does DepositConnect Mini count, sort and securely store your cash, it can also dispense individual floats. These time-saving features free up staff to focus on customer service rather than cash administration.

The new transit cassette option extends note capacity and allows you to securely move cash between your device and your safe.

Up to
70%
faster gaming
clearances

Prepare till floats
in minutes
