and 7 day
field service

BANKTECH MINI CASH RECYCLER

Banktech Mini Cash Recycler is perfect for medium-sized venues who need the convenience and security of a cash recycler without the space requirements and high cost of larger recyclers.

Manually handling cash is expensive. The new Mini cash recycler is designed to help medium sized venues improve operational efficiency by automating their cash handling processes.

Automating your cash management significantly reduces your labour costs, improves venue security and gives you confidence your money is where it should be.

Not only does the Mini recycler quickly count, sort and securely store your cash, it can also dispense individual till floats. These time-saving features free up staff to focus on customer service rather than cash administration.

Adding the optional transit cassette boosts the Mini's recycling capacity by nearly 40% and allow you to securely move cash within the venue.

Connecting the Mini recycler to our portal, BANKTECH Home, allows you to check on the cash levels - whenever and wherever you are.

Up to **70%**
faster gaming clearances

Prepare till floats
in minutes

Save hours every day

100%
Confidence
of cash on hand
